Try this. Maybe this is very useful to you and your Family....

NEW USES FOR VICKS VAPORUB

WOW! I was raised with Vicks, and so were my children. How come I never knew this? I can't wait for my next cough. Amazing! READ IT ALL. It works 100 percent of the time, although the scientists at the Canada Research council (who discovered it) aren't sure why. To stop nighttime coughing in a child (or an adult, as we found out personally), put Vicks Vapor Rub generously on the bottom of the feet at bedtime and then cover with socks. Even persistent, heavy, deep coughing will stop in about five minutes and stay stopped for many, many hours of relief.

This works 100 percent of the time, and is more effective in children than even very strong prescription cough medicines. In addition it is extremely soothing and comforting and they will sleep soundly. I heard the head of the Canada Research Council describe these findings on the part of their scientists when they were investigating the effectiveness and usage of prescription cough medicines in children as compared to alternative therapies, like acupressure. I just happened to tune in to AM Radio and picked up this guy talking about why cough medicines in kids often do more harm than good due to the chemical makeup of these strong drugs, so I listened. It was a surprising finding and found to be more effective than prescribed medicines for children at bedtime and in addition to have a soothing and calming effect on sick children who then went on to sleep soundly.

My wife tried it on herself when she had a very deep constant and persistent cough a few weeks ago, and it worked 100 percent! She said it felt like a warm blanket had enveloped her. The coughing stopped in a few minutes, and believe me, this was a deep (incredibly annoying!) every-few-seconds, uncontrollable cough, and she slept cough-free for hours every night she used it.

Pass this on to parents with young children or grandparents with grandchildren. If you yourself develop a cough, try it yourself and you will be absolutely amazed at the effectiveness of the above treatment.

:)
