Bai, sa sunod namong uli, we will make toyok from Toledo City to all the way up north, then come back down to Toledo City napud. It will take probably one day. What I've been observing among Cebuanos (or Filipinos as a whole) is that not too many people there like explore places outside of their municipality or city. It's amazing what the country side of Cebu has to offer. The sceneries there are just beautiful and untouched. I just wished that we made a stop at the Kawasan Falls Park.

Hi Lucille, that tiny island on the banner of this website is Sumilon Island. I'll visit that island, Kawasan, and tour the entire north of Cebu the next time I'm there. I was there in Cebu last February and March. So much has changed! I can't wait to go back there again.

i really love to travel and it has been my dream to travel around the world... one time when i was in the states, an american teacher asked me if ive been to all the 7,107 islands of the philippines and at that time ive only been to cebu, davao and manila, i was shocked when he told me, why are you here on vacation when there is still lots and lots of things u can see in the philippines. i just said shame on me.... i got his point, and so im actually trying to tour around the philippines but firstly trying too tour around cebu.... i love cebu so much and ill try to keep posting pictures of the beautiful spots in cebu while im on my tours....
